The fourth season of Miraculous: Tales of Ladybug & Cat Noir was confirmed to be planned by Jeremy Zag[11] and will consist of 26 episodes along with Seasons 1-3. Season overview
Not only is Marinette Ladybug, the superheroine that protects Paris from the attack of villains, but she’s also now the guardian of the Miraculous. This means that not only does she need to keep her identity hidden, but also the existence of these turbulent, magical creatures, the Kwamis! Marinette has a lot of pressure, not to mention her school and love life! Now she has less time and opportunities to tell Adrien her feelings... Marinette now has to redouble efforts to protect her secrets and Ladybug will have to become stronger to face an indomitable adversary: Shadow Moth, who can now fuse the Butterfly and Peacock Miraculous! Thankfully, Ladybug can count on Cat Noir and their new superhero allies!

Trivia
As of this season, Zoé Lee is the current holder of the Bee Miraculous, following Chloé’s termination from the French Miraculous superhero team after her betrayal and alliance with Hawk Moth at the end of the previous season. Despite this, the rest of the current holders, such as Alya Césaire and Nino Lahiffe, appear to still be allowed to keep their respective Miraculouses despite their identities being revealed in the previous season. Along with all seasons, this season airs 26 episodes. This is the first season to be co-produced by Globosat and it participates in the artistic development of the project.[42]
Although Globosat’s co-production begins with the fourth season, the credits for the third season also include Globosat. Like Season 3, this season features many characters which are akumatized again, some having new identities, while others having their ones introduced in Seasons 1 and 2.[43]
Luka and Kagami are akumatized into Truth and Lies, respectively. Lady Wifi, Princess Fragrance, Timebreaker, Horrificator, and Reflekta reappear as the Gang of Secrets. Mr. Pigeon is akumatized at least twice: one during the events of "Truth" and "Lies", and for the 72nd time in "Mr. Pigeon 72". Chloé is akumatized into Queen Banana. Malediktator is akumatized and amokized in "Mega Leech". Reflekta is akumatized and amokized, again in "Guiltrip". Guitar Villain and Captain Hardrock return as Crocofuel. Style Queen is akumatized again in "Optigami". Nino is akumatized again, but with a new identity, Rocketear. Two characters which appeared for the first time during Season 1 (Master Fu and Alec) are akumatized for the first time. Both Lila and Félix will return in this season, with the former confirmed to be returning in the finale. At least eight new Miraculous holders will be featured this season.[44]
According to Thomas Astruc, this season features a "bomb" in every episode that are the "equivalent impacts of Cat Blanc".[45]
"Truth" - Jagged Stone is revealed to be Luka and Juleka’s father. Marinette and Luka also break up because of Marinette being the guardian of the Miraculous, as well as being Ladybug since she kept noticing amoks and akumas. On Luka’s side, Marinette kept hiding something and then said that she can’t tell him. "Lies" - Kagami breaks up with Adrien. "Gang of Secrets" - Marinette reveals to Alya that she is Ladybug. "Mr. Pigeon 72" - Marinette discovers that she can create Magical Charms to prevent people from being reakumatized. "Psychomedian" - TBA
"Furious Fu" - Master Su-Han arrives. "Sole Crusher" - Chloé is revealed to have a half-sister, Zoé Lee, who grew up in New York. "Queen Banana" - Zoé becomes the new wielder of the Bee Miraculous and Chloé ends her friendship with Adrien. "Gabriel Agreste" - The only information that is known so far is that someone will find out Gabriel Agreste is Shadow Moth, as seen here. The person who will figure it out is unknown. "Mega Leech" - Mylene becomes the wielder of the Mouse Miraculous. "Guiltrip" - Rose is revealed to have an unknown illness and becomes the wielder of the Pig Miraculous. "Crocofuel" - Juleka becomes the wielder of the Tiger Miraculous. "Optigami" - Marinette allows Alya to keep the Fox Miraculous at all times. "Sentibubbler" - Alya tricks Shadow Moth into believing that she can never again become Rena Rouge, thus starting her new role as Rena Furtive. "Rocketear" - Nino reveals to Adrien, who is Cat Noir that he is Carapace and that Alya is Rena Rouge. Also, Alya confides in Nino about her new identity of Rena Furtive. "Wishmaker" - Luka learns the identities of Ladybug and Cat Noir. Unknown episode - Shadow Moth will gain the Ladybug and Cat Miraculouses. A new location, the Swan Island is confirmed to be visited, which first appears in "Wishmaker".[45]
Even though it was originally announced that SAMG Animation is no longer part of the production of the series,[46] they’ll animate some episodes of S4 with DQ Entertainment, Assemblage and Artage Studio[47], making it four studios animating for this season.[48][49]
According to the CEO of SAMG, Kim Soo-hoon, the studio will animate only 5-6 episodes of S4 and will not participate in the production after that.[50]
[51]
Symbiosis Studio, which was fired after Season 3, was listed on the credits of RTS’ release of "Lies", but was removed from all later releases, meaning that it’s most likely an error or they had a hand in animating the episode prior to their firing. According to Wilfried Pain, there will be a new character from the future.[52]
The second official promotional poster for this season was made by Konrad Olchawa, a Polish freelance artist and a fan of Miraculous.[53]
Season 4 was originally going to premiere in Fall 2020.[54]
However, due to the COVID-19 pandemic, it was delayed [55]
This season will be the first to premiere on Disney+, as Netflix’s contract for the show’s international streaming rights ends after the third season. Season 4 has new opening credits compared to the previous seasons.[56]
[57]
This is the first season where the first episode released worldwide isn’t the first episode in production order. Thomas Astruc’s quote about this season references Vegeta’s line from Dragon Ball: "It’s over 9,000!"

Marinette seems to be a normal teenage girl — she dreams of becoming a fashion designer, is a bit awkward and has a crush on a classmate. But she has secret other teenagers don’t have — she lives a double life as a crime-fighting superhero known as Ladybug. She uses her superpowers to help protect her native Paris from supervillain Hawk Moth. She is assisted, reluctantly, by fellow hero Cat Noir, even though she insists she doesn’t need him — a stance she might not take if she knew his alter ego is her crush, Adrien. Together, Ladybug and Cat Noir help keep Paris safe from Hawk Moth and other villains.

Marinette Dupain-Cheng, a shy high-school student, has inherited some magical ladybug-shaped earrings. The ornaments grant the power of Luck to whoever wears them. Yet there is one condition : they have to be worn in an altruistic manner, or else, beware of the consequences . Whenever the situation needs it, Marinette turns into LADYBUG, the guardian angel. First up, the Basic monthly subscription. For \$9.99 per month, this option allows the user to stream content in standard definition to one screen at a time. The next pricing tier, Standard, which comes in at \$13.99 per month gives subscribers access to high-definition streaming across two screens — which means there’s less fighting over the account! You can download onto two offline devices. The top tier, Premium, delivers 4K streaming to up to four devices at the same time for \$17.99 per month. Known as ultra-high-definition, this option requires you to have a 4k-capable TV in your home. The caveat, of course, is that this option chews data like nobody’s business.
